

PROTEK CLEANDISH POWER DRI

Premium Machine Rinse Additive

PROTEK CLEANDISH POWER DRI is highly concentrated formula for machine dishwashing that includes blend of non-foaming synthetic surfactants that aid in drying and rinsing. It lowers the surface tension of water and allows the water rapidly run-off and drain completely from surfaces. The end result is high speed drying, sparkling glasses and spot free wares. The product is concentrated and cost-effective solution. Thus, only small amount is necessary to yield spot free wares and film free wares. **PROTEK CLEANDISH POWER DRI** is suitable for plastics too and works great for all hard surfaces. Effective formula for hard water and irrespective of temperature condition. It inhibits scratch build up on tumblers. Unique colour of the product makes it easy to identify in injectors and pump lines.

Key Features:

- Single product for different rinsing application.
- Suitable for hard water and irrespective of the temperature condition.
- Can be used for plastic surfaces too.

Benefits:

- Produces spotless surfaces.
- Multipurpose formula for effective in high and low temperature machines.
- Free rinsing and quick drying.
- Suitable for all types of surfaces.

Directions for use:

Dosage:

Dispense into rinse water using a suitable rinse injector. The amount needed depends on the efficiency of the particular machine temperature of rinse obtainable, water hardness and rinsing temperature. See the service representative for proper usage of particular application.

Technical Specifications*:

Appearance	Blue coloured clear liquid.
pH (1%)	7.0 - 8.0
Specific Gravity (25°C)	1.0 ± 0.1

* -The above data is typical of normal production and should not be taken as a specification.

Storage information:

- Store in a cool & dry place in original supplied containers.
- Close the lids tightly after use.
- For safety and handling, refer to our MSDS.

Pack Size:

2 x 5 litre
