

PROTEK FABLEACH

Liquid Bleach for Low Temperature Washing of Textiles

PROTEK FABLEACH is specially formulated for commercial washing of white linen. It can be used for whitening of all types of textiles except wool and nylon.

Key Features:

- Highly effective and well stabilised low temperature bleach.
- The product ensures a good level of hygiene and disinfection if the temperature, pH and contact time is in accordance with operating instructions.
- The product achieves an excellent wash performance for white work clothes, restaurants, kitchen towels and hosiery textiles.
- A chlorine based formulation with stabilizer.

Benefits:

- Excellent bleaching agent for all types of textiles except wool and nylon.
- Allows bleaching at lower temperature which saves energy and increase lifespan of textiles.
- Ensure good hygiene.

Directions for use:

Effective bleaching result is achieved at 40°C. pH of the washing liquor should be between 9.2 to 9.5 when bleach is applied. Avoid prewash with peroxide. Avoid residues of Na-Bisulphite in main wash.

Technical Specifications*:

Appearance	Colourless to pale yellow liquid
pH (1%)	Alkaline (>9.0)
Specific Gravity (25°C)	1.0 ± 0.1

* The above data is typical of normal production and should not be taken as a specification.

Storage information:

- Store in a cool & dry place in original supplied containers.
- Close the lids tightly after use.
- For safety and handling, refer to our MSDS.
- Avoid storing with strong acids / alkalis and oxidising or reducing agents.

Pack Size:

25 litre

Corrosive
